Dear Mr. <<image004.jpg>> Bell,

Att <<State software.pdf>> ached you will find the fo <<image002.jpg>> rthcoming software maintenance term for ESRI. This is a small part of the parcel maintenance. Sidwell parcel builder is an extension of ESRI. GIS software does not have a separate contract at this time however we anticipate within the next year, this will take place.

The Martin Browning Inc. software license agreement along with the addendum is attached.

Should you have questions or need further assistance please let me know.

Judy Rust
